

MScAC Game Nights Proposal

Overview

Building on the success of previous game nights, this proposal aims to continue organizing weekly Friday game nights for MScAC students. These gatherings provide a low-pressure environment to unwind between assignments and deadlines, share laughs, strengthen connections within the cohort, and connect with 2nd year students to learn from their experiences.

Schedule proposed and budgeted for four Friday events at a time on a rolling basis: 11th Sep, 18th Sep, 25th Sep, and 2nd Oct, from 6:00 PM to 9:00 PM. The frequency can be adjusted later based on attendance and participant feedback.

Invitations will be sent to both Cohort 25 and Cohort 26.

Benefits

- **Students:** Meet peers outside coursework, connecting with the cohort in an informal setting, taking breaks between assignments, learning from the 2nd year students
- **MScAC:** Strengthens community, supports wellbeing, facilitates cross-cohort engagement

Logistics

Item	Details
